

ADMIN DASHBOARD

Presentation by Josh, Felipe, and Grant

CONCEPT

For this project, we created an Admin Dashboard app that allows users to seamlessly view and edit large amounts of information with many more features such as e-commerce, calendars, text editors, and more.

METHODOLOGY

CHALLENGES

Being able to narrow down on a single idea.

Merge conflicts

SUCCESSES

Creating a functioning admin dashboard app

Working together as a team

FUTURE DEVELOPMENT

Implement more APIs for more customization.

More expansive back end development

google calendar API

More organization
